# KPS

## **SWEETENED CHESTNUT EXTRACT**

### **PROPERTIES:**

KPS is a natural vegetable chestnut extract, powder of a light brown colour, excellent tanning properties of reduced astringency. KPS penetrates into hides quickly, evenly binding with the hide fibres, confers high elasticity and flexibility to the tanned leather. It gives the leather even light colour and enables even and fast retanning. KPS is easily soluble in water and is excellent for mixing with all other types of tannins.

### **PRODUCT SPECIFICATION (FILTER METHOD)**

|            |             |
|------------|-------------|
| Tannin     | 71% +/-2%   |
| T/NT       | 3 +/- 0,1   |
| PH -6,9 Be | 4,5 +/- 0,2 |

### **APPLICATION AND ADVANTAGES OF USING IT:**

KPS is soluble in tap and hot water, and can be used alone or compounded with all other types of leather tanning materials. It is applied in the process of tanning and retanning of leather, confers to the tanned leather the following characteristics and qualities:

#### **To vegetable tanned leather:**

- Compactness and retanning
- Excellent elasticity
- Grain compactness
- Light stability

#### **To retanned leather:**

- Compact grain
- Excellent buffing and polishing properties
- Excellent print acceptance and retention
- Even colour

### **PACKAGING:**

25 KG paper bags
