# OLS

## **MODIFIED VEGETABLE EXTRACT**

### **PROPERTIES:**

**OLS** is a natural vegetable extract, atomised powder of a light brown colour, excellent tanning properties of reduced astringency.

**OLS** penetrates into hides quickly, evenly binding with the hide fibres, confers high elasticity and flexibility properties to the tanned leather and fast retanning.

**OLS** is easily soluble in water and is excellent for mixing with all other types of tannins

### **PRODUCT SPECIFICATION (FILTER METHOD)**

Tannin            65% +/- 1%

T/NT             < 2,5

pH                4,0 +/- 0,5

### **APPLICATION AND ADVANTAGES OF USING IT:**

**OLS** is soluble in tap and hot water, and can be used alone or compounded with all other types of leather tanning materials. It is applied in the process of tanning and retanning of leather, confers to the tanned leather the following characteristics and qualities:

#### **to vegetable tanned leather:**

- **compactness and retanning**
- **excellent elasticity**
- **grain compactness**

#### **to retanned leather:**

- **compact grain**
- **excellent buffing and polishing properties**
- **excellent print acceptance and retention**
- **even colour**

### **PACKAGING:**

25 kg bags
