RENTAN B

DESCRIPTION:

RENTAN B is a natural vegetable modified chestnut extract, powder of a brown colour excellent tanning properties. RENTAN B penetrates into hides quickly, evenly binding with the hide fibres, confers high elasticity and flexibility to the tanned leather. It gives the leather even colour and enables even and fast retanning. RENTAN B is easily soluble in water and is excellent for mixing with all other types of tannins.

PRODUCT SPECIFICATION:

Tannin	min.68 % fm
PH	4,3 - 4,6 (10% water sollution)

RENTAN B is an extract with the reduced astringency. For that reason it penetrates in to hides quickly. It can be used in tanning and retanning process. By the using of RENTAN B the leather gets grain compactness, light stability, even tanning effect. To the retanned leather RENTAN B confers a excellent buffing and polishing properties, even colour and good print acceptance. For the tanning of different types of the hides 3 - 12% of extract RENTAN B is recommended.
